

Welcome to Year 5!

Rowan Class

Willow Class

Topic

Our topic this term is 'Vikings vs Anglo-Saxons'. We will be learning about Viking invasions, Viking and Anglo-Saxon beliefs, as well as how the Vikings defended themselves in battle. We look forward to making our own Viking shields and to having our own banquet afternoon at the end of this term!

Science

Our focus in science this term will be Earth and Space where we will be learning about the shape and relative sizes of the Earth, Sun and Moon, why our shadows change and much, much more!

Maths

In maths we will be focussing on fractions, decimals and percentages.

Literacy

This term we will be using Norse Myths and the story of Beowulf to learn how to structure our stories with a clear plot. Later this term, we will be writing our own information texts about Norse Gods before moving on to writing our own set instructions on how to trap a monster!

Homework will be assigned every **Thursday** and will be due in on the following **Monday**. Reading and spelling also form an important part of homework; both of which should be practised daily.

PE kits and **water bottles** should be in school every week. PE will take place every **Thursday**.
