

In maths, we will continue to build on the basic learnt this year. At home, children should continue to strengthen this and should show you how they use jottings to add and subtract larger numbers. As well as knowing their number facts to 20, children should know their 2, 3, 5, and 10 times tables. They should practise recalling these rapidly (in any order) and also, learn the inverse (division) of each.

In P.E. the children will be doing athletics with Ms Turner and will continue to build their basic skills such as aiming at a target, hitting a ball with a bat and working as team.

This term we are learning about ...

Wacky Races. We will be discovering the weird and wonderful world of Dastardly and Mutley (and all their fellow competitors). The children will be designing and making their own model wacky race car!

Cherry Class

In literacy this term we are looking at the stories, 'Hare and the Tortoise' and 'How the tortoise got its shell'. Please encourage your child to share their stories with you at home. You can help your child by ensuring they practise their spelling, read their reading book to you every day and by enjoying a bedtime story together 😊.
