

Maths continues the children's skills from last year, starting with numbers and how the number system works (including place value). We will then move on to learning methods for addition, subtraction, multiplication and division.

- You can help your child by making sure they know their number bonds to 10 and their 2, 5 and 10 times tables.

In PE the children will be doing gymnastics and dance with Mrs Turner.

Cherry Class

We will be learning some of the history of Oxford Castle and the area around the school through our Horrible Histories topic. We will also be looking at the Bayeux Tapestry in art.

In Literacy this term we are looking at the story, 'Hansel and Gretel' and learning about Empress Matilda's escape from Oxford Castle. We will also learn features of non-fiction writing through an information text about castles and a recount of our class trip.

- You can help your child by listening to their story telling, reminding them of their punctuation and practising their spelling.
