

OAK CLASS

Welcome to Team Oak where we are all becoming responsible, motivated and independent learners, who always help others along the way.

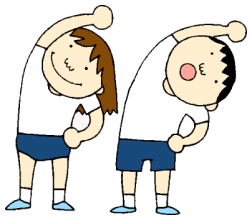

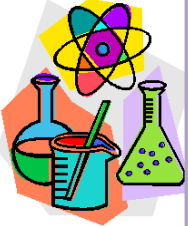

Maths

In maths we encourage children to be all-round mathematicians; including knowledge of number, shape, measure and data handling. This term's focus is to be confident with word problems as well as division tables and units of measures.

In science and RE...

In science, we will discover about sound and electricity, with a focus on working scientifically. In RE, we will be studying the importance of commitment in Judaism and Christianity.

PE kits and water bottles should be in school at all times. PE will take place on **Thursdays**.

RISE OF THE ROBOTS

The topic to bridge our learning this term is 'Rise of the Robots' where we will discover all about the origin and use of robots. We will learn about their history, application and take a closer look at types of robots too. Alongside this, we will investigate the science behind their construction.

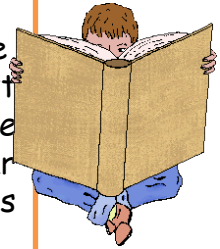

Music

This term, Oak Class will continue ukulele lessons led by Mr Spires.

Literacy

We will be learning to narrate, perform and write different text types, our current one being The 'Teacher Pleaser' Machine. Regular practice of our texts embeds children's learning.

Homework, alongside spellings, will be assigned on **Thursdays** and will be due in the following **Monday** in the Log Books. Both **spelling** and **reading** should be practised daily.
