

ASH CLASS

Welcome to Team Ash where we are all becoming responsible, motivated and independent learners, who always help others along the way.

RISE OF THE ROBOTS

The topic to bridge our learning this term is 'Rise of the Robots', through which we will discover all about the origin and use of robotics. We will learn about their history and their impact on the human world, as well as investigate the many different types. Alongside this, we will investigate the science behind their construction.

Maths

In maths we are encouraging children to explain mathematical concepts and prove their thinking, both **verbally** and **using physical resources**. This term's focus will be on decimals, money, statistics, geometry and time.

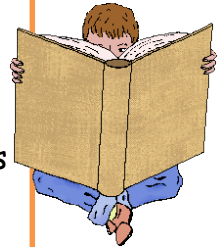

Reading

This term, we will be basing our shared reading sessions on *The Iron Man* by Ted Hughes and *The Wild Robot* by Peter Brown.

Literacy

We will be learning to narrate, perform and write different text types, our current one being *The 'Teacher Pleaser' Machine*. Any exposure to different types of non-fiction texts would be very beneficial to the children's understanding of non-fiction writing.

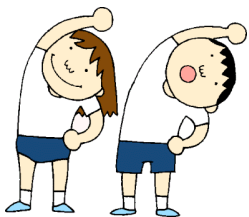

Science and RE...

In science, we will learn about *Electricity*, including circuits, and using this knowledge to build a motorised robot car. In RE, we will be discussing the ways in which the Buddha's teachings make a difference to how Buddhists choose to live, followed by a study of places of worship in Christianity and other religions.

PE kits and **water bottles** should be in school at all times. PE will usually take place on **Thursdays**. Ash Class will continue their swimming lessons on **Tuesdays**.

Homework, including spellings, will be assigned on **Thursdays** and will be due in the following **Monday** in the Log Books. Both **spelling** and **reading** should be practised daily.
