

St Christopher's Primary School

Vision and Principles

- At St Christopher's our intention is to provide an Art Curriculum which cultivates creativity and wellbeing whilst allowing children to explore their imagination, generate ideas, acquire skills, develop and deepen their understanding, apply judgements and rejoice in their learning. We value Art and Design as an essential part of the curriculum which engages, inspires and challenges pupils and develops their cultural capital. We like to celebrate art in our school by displaying a range of our art around our environment and taking part in annual art projects in school.

Our art teaching and learning is good when:

We produce creative work, exploring our ideas and record our experiences

We learn a variety of drawing, painting, sculpture and other art, craft and design techniques

We evaluate and analyse creative works using the language of art, craft and design

We learn about great artists, craft makers and designers

We develop life skills as well as both social and cultural experiences
