

St Christopher's Primary School

Vision and Principles

- At St Christopher's our intention is to provide a languages curriculum that provides children an opening to other cultures, which in turn teaches children to have a global perspective. Children leave with a robust understanding of how words and sentences are formed, and are engaged language learners, who are excited to develop their abilities in other languages. Children are provided with opportunities to communicate through speaking and listening for practical purposes, to learn new ways of thinking and read or listen to literature in the original language.

Our MFL teaching and learning is good when:

We understand and respond to spoken and written language from a variety of authentic sources

We speak with increasing confidence, fluency, accuracy and spontaneity

We write at varying length, for different purposes and audiences

We discover and develop an appreciation of another language

We develop life skills as well as both social and cultural experiences
